EXPLANATION OF RELEVANCE

References AJ, AK, and AQ were cited in the International Search Report and were all classified in category A. References AK and AQ are in English. Reference AJ is a European Patent in German, but an English language abstract has been provided. References AL and AM are German patents describing background information. English language abstracts have been provided for these references as well. A full English translation will be prepared for any of the above references at the request of the Examiner.

The filing of the present Information Disclosure Statement is not to be construed as a representation that a search has been made, and is not to be construed as an admission that the information cited in the present Information Disclosure Statement is, or is considered to be, material to patentability as defined in 37 C.F.R. §1.56(b).

The above citation of prior art is not a representation that such art constitutes a complete or exhaustive listing of all pertinent prior art, nor that it necessarily includes the closest or most relevant art. The aforementioned citation comprises a voluntary citation of prior art of which applicant and his attorney are presently aware and is not intended to serve as a substitute for the Examiner's own search.
